Subject: Application for [Game Developer/3D Artist/IT Role] - Zhaomin Liu

Dear Hiring Manager,

As a recent Bachelor of Information Technology graduate from Monash University (December 2024), I am writing to express my strong interest in a role within your development or design team. Holding a Subclass 485 Temporary Graduate Visa with full work rights, I am eager to bring my technical expertise in Unreal Engine 5, Unity, and 3D asset creation to your projects immediately.

During my studies, I specialized in Game Development, where I cultivated a robust skill set that bridges artistic design and technical implementation. I am confident I can contribute effectively to your team in the following areas:

- Game Development & VFX: I have hands-on experience developing a 2D PVE shooting game in Unity. In this project, I led the VFX design, environment art, and UI/UX implementation. I am proficient in creating particle effects, post-processing renders, and cinematic animations. Furthermore, I possess a solid understanding of C++ for Unreal Engine and Playmaker for AR/VR interactions.

- 3D Art & Modeling: I am skilled in Maya, Blender, and Substance Painter. For our university capstone project—a 3D FPS game—I created nearly all the 3D models, including environment assets and thematic buildings, ensuring they fit the specific visual style of the game.

- Full-Stack & Web Development: Beyond game engines, I am proficient in JavaScript, MongoDB, and Python. I have experience in developing functional websites and managing databases, ensuring both backend logic and frontend visual design meet high standards.

Additionally, my experience working in an educational institution has honed my ability to communicate complex concepts clearly and manage tasks efficiently. I am a dedicated team player who understands the importance of project management and collaborative workflows in delivering successful IT products.

I am passionate about creating immersive digital experiences and am eager to apply my diverse skill set to your innovative projects. Thank you for considering my application. I have attached my resume for your review and welcome the opportunity to discuss how I can contribute to your team.

Sincerely,
Zhaomin Liu (Johnny)

MONASH University

Proof of Qualification

Student ID: 32229763 **Issue Date:** 8 February 2025

Student Name: Zhaomin Liu

Monash University confirms the course completion of the student in the Bachelor of Information Technology, CRICOS code 085120M, at the University's Clayton campus. The student commenced the course on 25 October 2021.

The Bachelor of Information Technology has a usual duration of 3 years full-time or 6 years part-time. The course is delivered in English.
