Cover Letter

Dear Hiring Team of Daimler:

My name is Zhaomin Liu and my English name is Johnny. I am a student who graduated from Monash University, and I got the 485 temporary graduated work visa recently.

In Monash University, my major is Information Technology. Which means I have experience with the development of many different kinds of products.

For 2D design, I developed a PVE shooting game by Unity engine. It is a game which ask the player to use different weapons and arrange the route carefully to complete all levels, and the background is a strange dungeon. I completed this game with 2 other teammates, I mainly focused on VFX design, environment art and UI/UX design. But I also contributed my thought for the storyline and combat design.

For VFX effect, I am good at particle effects and post-processing includes rendering, cinematic effect, filter and animation for different objects. I know how to allow objects to move, break and shape shift in engines. What’s more, I also learnt about how to use Unity and Unreal Engine 5. I am familiar with the VFX function and post-processing function of those 2 engines, because most of our game projects based on Unity or Unreal.

3D modelling is another skill I am good at. I have rich experience in this field. I can make different buildings in different style to fit various theme of the environment. Our capstone project in university was a 3D FPS project and I made almost all 3D models for it. I am familiar with Maya, Blender and Substance Painter.

Last but not least, I am familiar with the team project management. I learnt about the system development and IT manage units in university. I also know how to make websites by javascript, manage database by MangoDB and python.

If you can give me a chance, I will try my best to work hard.

Regards,
Zhaomin Liu (Johnny)

MONASH University

Proof of Qualification

Student ID: 32229763 **Issue Date:** 8 February 2025

Student Name: Zhaomin Liu

Monash University confirms the course completion of the student in the Bachelor of Information Technology, CRICOS code 085120M, at the University's Clayton campus. The student commenced the course on 25 October 2021.

The Bachelor of Information Technology has a usual duration of 3 years full-time or 6 years part-time. The course is delivered in English.

The student has satisfied the academic requirements for the following award(s):

Award title	Completion date
Bachelor of Information Technology	2 December 2024

Senior Director, Student Services
Monash University, CRICOS code 00008C
